INTERNATIONAL

ARIENS **RAPIDTRAK™**

EXPERIENCE OUR UNIQUE TECHNOLOGY.

For many customers, snow and landscape conditions can vary dramatically. Sometimes you must work to clear light snow, other days in heavy, wet conditions. Perhaps you must clear snow from a sloping driveway or in icy conditions. RapidTrak™ allows you to do it all – clearing snow from almost any terrain.

Using industry-leading technology, RapidTrak can transform itself from a conventional two-wheeled machine into a high-grip track system.

EXPERIENCE THE POWER AND FUNCTIONALITY OF A TRACK WITH THE MANOEUVRABILITY OF A WHEEL.

SPEED AND TRACTION

The Ariens RapidTrak™ combines track-system stability with the speed of a wheel-drive Sno-Thro®.

MAXIMUM MANOEUVRABILITY

Adjust on the go by moving the back wheel up to turn with the ease of a wheeled Sno-Thro®.

UNDISPUTED POWER

The dual belt drive system delivers maximum torque quickly, so you can power through piles of snow.

POSITION 1 – TRACK

A traditional track position with the grip of a track for normal operation.

POSITION 2 – WHEEL

When you shift the back wheel up, the larger wheel functions like normal-wheeled machines, fast and easy.

POSITION 3 – DIG-IN

When you shift the back wheel down, you tilt the machine so that the auger locks on a downward angle, digging into snow obstacles.

SMART STARTING.

EZ-Launch™ makes starting simple compared to other snow blower engines. Just turn the key and start with a single pull of the recoil rope – in any condition and at any temperature.

UNPRECEDENTED FUEL EFFICIENCY.

EZ-Launch™ EFI engines create a more fuel efficient combustion, saving petrol and saving you money.

KEEP MOVING.

THE ADVANTAGE OF EFI & E-GOV

Thanks to an electronic governor, EZ-Launch EFI maintains consistent speed and throwing performance. So, unlike a typical carburetted engine, it won't labour, even in deep and wet snow.

EASY MAINTENANCE.

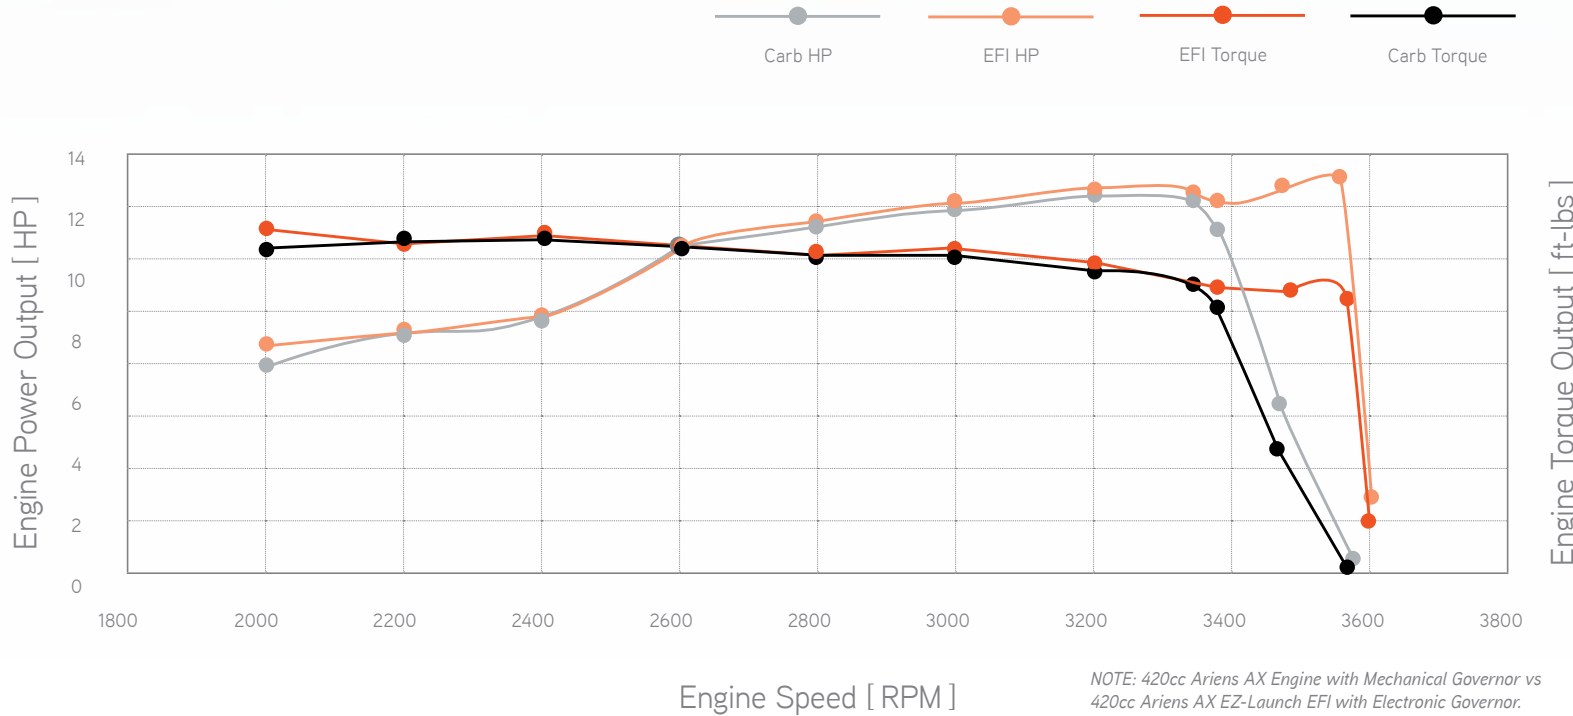

A completely sealed unit, the EFI fuel system eliminates maintenance costs. It won't seize up during the summer months, so you can pack it away with peace of mind.

POWER AND CONVENIENCE.

ARIENS AX EZ-LAUNCH™ EFI ENGINE*

One turn of the key. One pull to start. No matter what the conditions, the Ariens AX EZ-Launch™ EFI starts easier, uses less fuel and throws snow with constant power.

When it's cold outside, and you're running late for work, you want the confidence of 'first time' starting and reliable engine performance. EFI, or 'Electronic Fuel Injection' technology provides these benefits – and many more.

WINTER'S
BEAUTY IS
SUBJECTIVE.
OUR ABILITY TO
CLEAR IT IS NOT.

Ariens two-stage snow throwing machines are the no-compromise answers to your snowproblems. They're made for maximum snow removal while requiring minimum effort from their users. If there's any question to be made about our King of Snow designation, these machines are a big part of the answer.

CAST-IRON GEAR CASE

Our rugged gear case leads the industry by producing an unmatched auger ratio to clear more snow. Equally impressive is its industry-leading 5-year warranty.

ALL-STEEL CONSTRUCTION

An all-steel Ariens® Sno-Thro® is built to stand the test of time.

ELECTRIC START

Starts easily with the push of a button, even in extreme conditions.

2.5X QUICK-TURN CHUTE

Put powder in its place with a 2.5X Quick-Turn Chute with 205-degree rotation.

CLASSIC & COMPACT SERIES

A POWERHOUSE TRIMMED DOWN TO SIZE.

The Classic and Compact Series is designed for effortless agility yet doesn't sacrifice the Ariens® ability. The Classic and Compact Sno-Thro® was designed to be easy enough to take out for a light dusting of snow and reliable enough to tackle up to 59 tons per hour if needed. Don't let its size fool you, there's a lot of power packed into every Ariens® Classic and Compact.

AUTO-TURN™ STEERING

Effortless, zero-degree turning radius.

DUAL-BELT DRIVE

Exclusive to Ariens, delivers maximum power through tough conditions, plus extended belt life.

DEEP TREAD TIRES

16” directional tires provide improved mobility and agility.

HAND WARMERS

Stay warm and comfortable with our premium hand warmers.

DELUXE SERIES

WHERE OLD MAN WINTER BECOMES MORE OF AN ELDERLY GENTLEMAN.

The Deluxe Series is consistently one of our best sellers because it consistently takes winter down a few notches. They bring the calm after the storm. They’re easy to maneuver and control with their standard Auto-Turn™ steering. Various engines and machine widths make it easy to find the right unit for your property. When you walk behind a Deluxe, you walk in the tire tracks of greatness.

IF YOU DON'T HAVE AVERAGE SNOWFALLS, YOU SHOULDN'T HAVE AN AVERAGE SNOW BLOWER.

This isn't a wheels vs tracks story. After all, they each have their place. We just happen to think some places need both. That's the versatility RapidTrak™ gives you. It's the best traction delivering the most power under any conditions. Thanks to its intuitive, user-friendly design you can switch between wheel and track settings in seconds. Its wheeled setting gives you effortless maneuverability on flat surfaces while the track setting delivers the traction you need against high snow piles on hills or slippery pavement. Snowfalls can be unpredictable. With RapidTrak™, how you clear them can be very predictable: easily.

RAPIDTRAK™

AN ENGINE TRULY WORTHY OF A KING.

We have a reputation to uphold. That's why we feature Electronic Fuel Injection (EFI) engine technology. They start with the turn of the key and deliver the torque and power to keep you clearing snow of all types and all depths. An electronic governor maintains consistent speed and throwing performance. They put typical carbureted engines to shame delivering continuous power in wet snow and deep drifts, even at low throttle. This is next-level performance and ensures our crown is safe.

HAND WARMERS

Stay warm and comfortable with our premium hand warmers.

AUTO-TURN™ STEERING

Effortless, zero-degree turning radius.

EFI ENGINE AVAILABLE

Our Electronic Fuel Injection Engine is easy starting, requires less maintenance and provides efficiency and performance for high altitude snow removal.

SUPER HIGH OUTPUT IMPELLER (SHO)

Move through heavy, wet snow with ease with our exclusive SHO technology.

PLATINUM SERIES

THERE IS NO HONOR IN WAITING FOR SNOW TO MELT.

Remove it like the model-homeowner you strive to be with one of our Platinum Series machines. These units were built for high-volume workloads, hence their standard hand-warmers. The Platinum Series is loaded with features sure to fit your snow removal needs so you can get back inside as quickly as possible. Their Super High Output (SHO) impellers also come standard, making sure the snow is gone in no time.

PROFESSIONAL SERIES

ALL THIS TIME SNOW THOUGHT HEAT WAS ITS ONLY ENEMY.

Their professional status is earned by the tonsage they clear every minute. The deepest, heaviest snowfalls are given their last rites the moment this 420cc engine starts. You don't need to be a professional to own one, just the desire to move as much as possible in as little time as possible. Go ahead, upgrade your amateur status and throw like the professionals.

AUTO-TURN™ STEERING

Effortless, zero-degree turning radius.

STEPLESS SPEED

Control the speed easily and steplessly with hydrostat operation.

HAND WARMERS

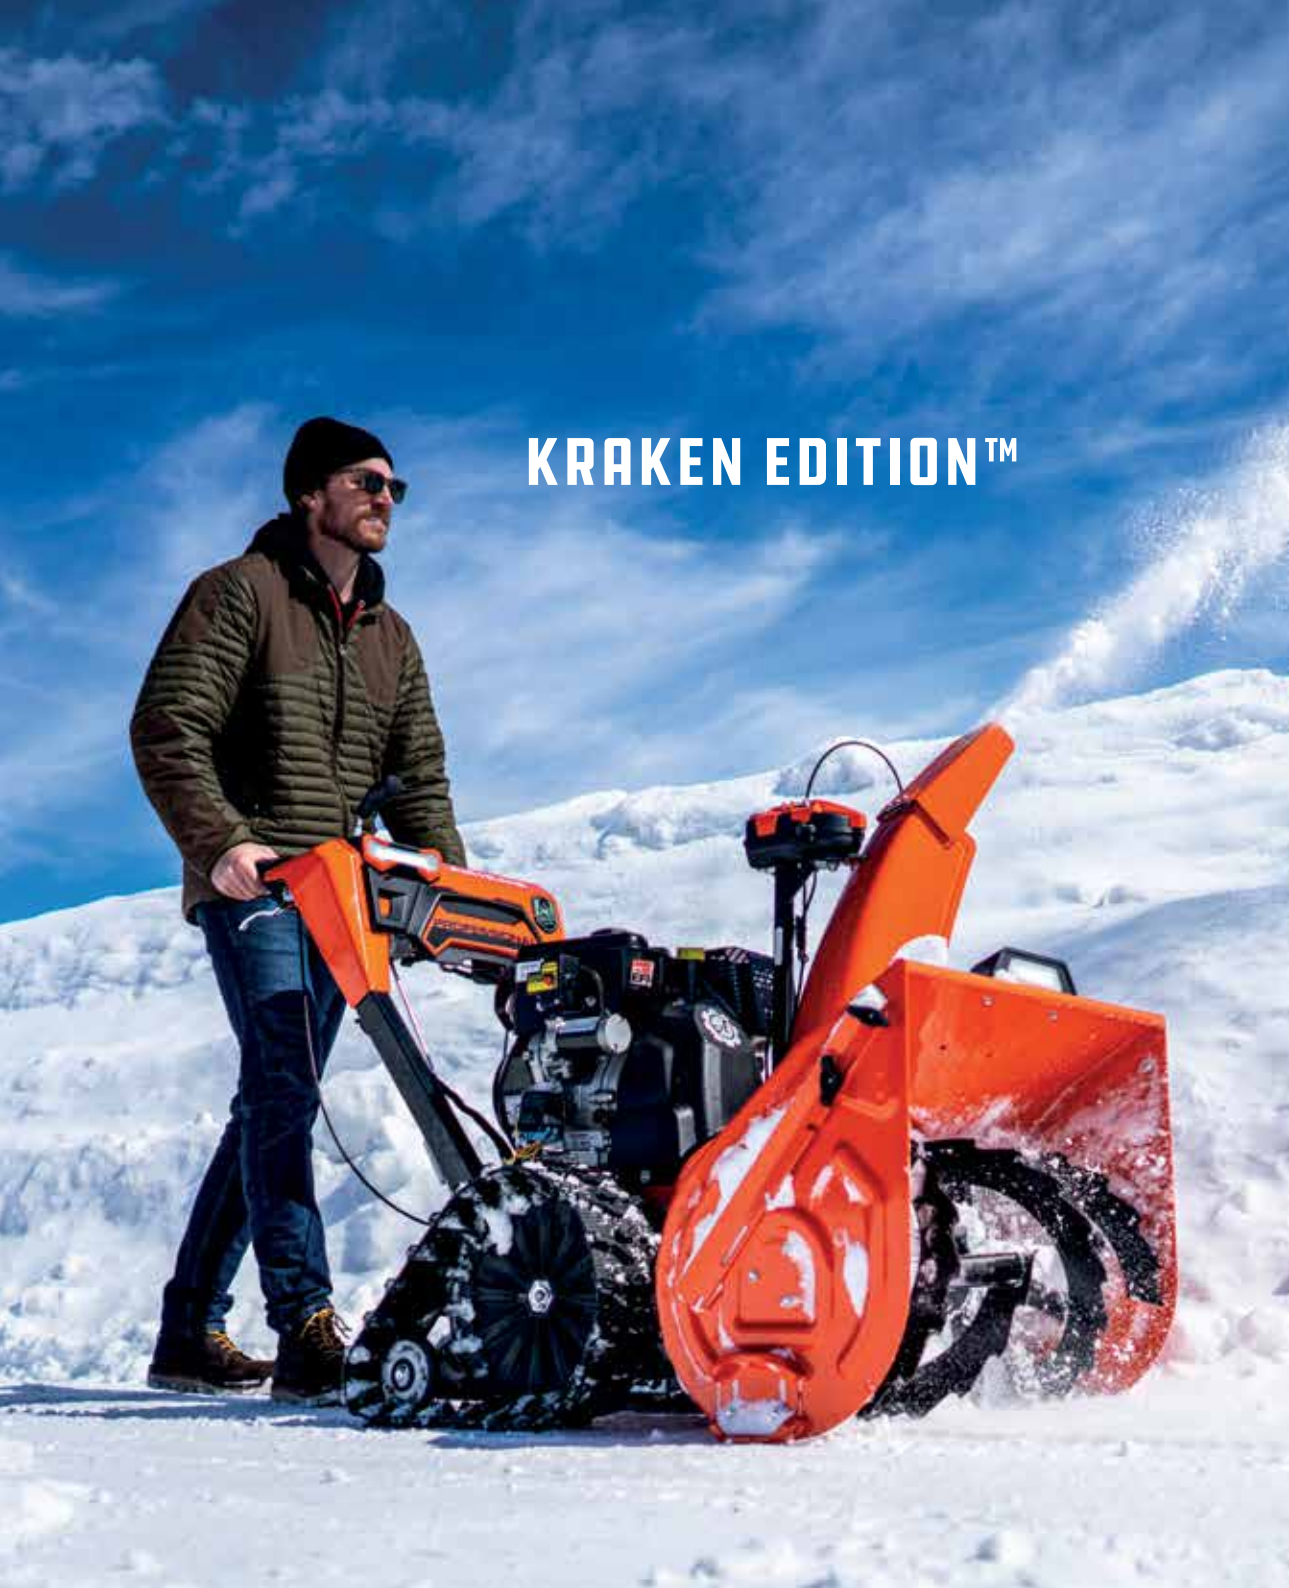

Stay warm and comfortable with our premium hand warmers.

THROWING PERFORMANCE

Snow throw ranging from 0.9 - 18 m.

ARIENS® AX420 EFI ENGINE

Our Electronic Fuel Injection Engine is easy starting and provides high performance snow removal.

DRASTIC MEASURES? CONSIDER THEM TAKEN.

There are parts of the world where snow doesn't fall lightly from the sky. We know those regions well. So well in fact, they have inspired our three Special Edition snowthrowers. No matter which snow-ridden landscape you call home, with one of these machines you won't worry at even the biggest blizzard.

MAMMOTH™

THE BIGGEST BLOW TO SNOW SINCE THE ICE AGE

This go anywhere, clear anything behemoth was designed and built unlike anything anyone has seen before. From its best-in-class engine to its beefy, four-wheel-driven tires, there is not a snow-covered path it cannot clear with ease. Read on and you'll quickly see how the Mammoth is ready to take on any obstacle.

QUICK TOOL-CHANGE

Quick connection on all accessories ensures quick and easy change of equipment in about 30 seconds.

EASY TO OPERATE

With joystick control, you can adjust the tool according to your needs.

POWERFUL LED LIGHT

Powerful LED lights makes it easier to get the job done.

HAND WARMERS

Stay warm and comfortable with our premium hand warmers.

EFFICIENT AT WORK

Four-wheel drive ensures good and efficient accessibility in difficult conditions.

EFI ENGINE

Our Electronic Fuel Injection Engine is easy starting and provides high performance snow removal.

ACCESSORIES

48" PLOW

This thick scraper blade pivots left and right 30 degrees and is easily adjustable with the electric joystick.

BRINE SPRAYER

With five sprayer nozzles, a handheld wand, and 75 l brine tank, ice has met its match. The full kit includes all hoses, pumps, and nozzles, as well as a spray wand that attaches to the tank.

36" & 48" SNOW BLOWER HEAD

This all-steel snow remover can throw snow up to 18 m and is easily controlled with the touch of a joystick on the dash. Steel scraper blades and skid shoes are standard.

SALT SPREADER

This stainless-steel rear-mounted unit features 55 l of capacity, an adjustable drop width of 76, 84 and 91 cm and a digital variable speed controller on the dash.

44" POWER BROOM

Clears down to the surface making it perfect for zero-tolerance properties. Individual polymer bristle discs are easy to replace when worn.

48" V-PLOW WITH ELECTRICAL ADJUSTEMENT

Multiple Uses: V-plow, straight blade, and U mode, all in one attachment. Trip Edge Blade Design keeps you plowing over uneven surfaces. Float and Down-Pressure protects the surface, operator, and tractor helps clear heavily packed snow.

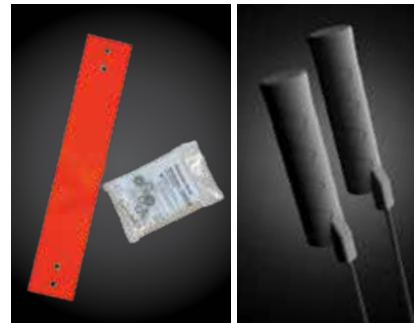

OUTFIT YOUR ARIENS TO TACKLE ANYTHING.

Take your Ariens to the next level with OEM accessories and upgrades that turn the best machines on the planet into the perfect machine for your property. And because the accessories come straight from the factory, you'll never have to second guess performance.

SNOW CAB

Protect yourself from the elements with a spacious, rugged, steel-frame Ariens Sno-Thro® cab. Freeze resistant windows protect against heavy snow, wind and snow blowback conditions.

FRONT WEIGHT 4.5 KG

In case of firm snow, the additional weight on the cutter housing increases the pressure of the scraper edge to the ground.

HEATED HANDLE GRIPS

Stay comfortable in the coldest conditions with the ergonomic heated handle grips.

SNOW CHAINS WITH SPIKES

Ultra-sticky snow chains for strong traction on ice and compacted snow. Available in 13", 15" and 16" for all wheel drive models.

DRIFT CUTTER KIT

Chop through heavy snow drifts with an Ariens drift cutter. The cutters rotate down for regular use and go into the auger housing to discharge snow quickly. The design allows for easy installation and fits smaller models. This kit includes two cutter bars, four clamping knobs and the necessary hardware for installation.

NON-ABRASIVE SKID SHOE

Durable polyethylene material resists wear while providing protection from scratching and marring the decorative surfaces surrounding your home.

SNO THRO COVER

Designed to protect your investment, the Ariens professional snow cover provides year,round protection for your Ariens snow blower. Ariens covers are constructed of tough, durable, washable and tear,resistant 300 denier polyester.

SORRY SNOW, WE'RE DONE FIGHTING FAIR.

WE NEVER UNDERESTIMATE THE POWER OF

DEPENDABILITY.

When you step out into the cold ready to tackle the tons of snow in your path, you expect your snowthrower to be as ready as you are. That means a machine that will start every time you turn that key and push the button. A machine that will chew through whatever snow is in its path and keep throwing until the job is done. A machine you can count on to clear the way season after season. That's the reliability people have become accustomed to with Ariens. After all, we're the King of Snow for a reason, and we don't plan on relinquishing our crown anytime soon.
